

CATÁLOGO 2014
PASTILHAS DE FREIO

ÍNDICE

LANÇAMENTOS 2014	07
BUSCA POR MARCA, MODELO E ANO	15
BUSCA POR CÓDIGO	47
DESENHOS TÉCNICOS	71

EMPRESA

Uma organização 100% nacional, a **EcoPads** está preparada para atuar em todos os mercados, fabricando pastilhas e sapatas de freio para os segmentos automotivo, industrial e aviação, atendendo a diferentes necessidades de desempenho e durabilidade.

Novo modelo com tecnologia exclusiva Anti-Ruído

A empresa possui modernas plantas industriais em Jundiá (SP) e Louveira (SP) que estão equipadas com maquinários e softwares de última geração.

VALORES CORPORATIVOS

A **EcoPads** utiliza métodos inovadores de produção, realiza pesquisas de matérias-primas e, principalmente, mantém uma relação transparente e sólida com o mercado, permitindo que o seu crescimento seja constante.

MISSÃO

Tornar-se Líder na América Latina e obter uma presença global significativa, com ênfase nos mercados europeu e norte-americano.

MEIO AMBIENTE

A **EcoPads** também se destaca pelo respeito ao meio ambiente já que trabalha com matérias-primas fabricadas a partir de fibras naturais e sintéticas e não utiliza o amianto, um componente altamente poluente.

Molas e Sensores: produção e instalação automatizadas.

Pintura: contém borracha, reduzindo eventuais vibrações e aumenta o desempenho

Prensas robotizadas rotativas

TECNOLOGIA

O grande diferencial da **EcoPads** está no contínuo investimento em novas tecnologias. Também são realizadas pesquisas, revistos métodos e processos de produção, análises do uso de matérias-primas e testes com os produtos, a fim de levar ao mercado o que há de melhor em se tratando de um produto de segurança.

Ao utilizar aços mais resistentes; o processo FINEBLANKING para estampar as plaquetas; compostos livres de amianto elaborados em misturadores automáticos; sistemas de molde, prensagem e cura de última geração; acabamentos como o antioxidante PowderCoat e membranas antirruído, a **EcoPads** processa as suas pastilhas e sapatas de freio com características únicas no mercado.

A EcoPads trabalha com matérias-primas fabricadas a partir de fibras naturais e sintéticas e não utiliza amianto

A EcoPads é fornecedora oficial de itens e componentes para as equipes das principais categorias profissionais do automobilismo nacional

PASTILHAS DE FREIO

Desenvolvidas para oferecer frenagens seguras por mais quilômetros, as pastilhas de freio da **EcoPads** têm plaquetas com acabamento antioxidante, dimensões corretas e não deformam. Outro importante diferencial está no composto de atrito, formulado com matérias-primas de origem mineral e natural que são controladas química e fisicamente. Isentas de amianto, possuem composições específicas, de acordo com cada modelo de automóvel, apresentando homogeneidade/mesmo coeficiente de atrito em todos os itens produzidos. São seis as linhas da **EcoPads**:

LINHA PARA PESADOS – Ônibus e Caminhões –, as pastilhas têm uma composição especial para atender altas temperaturas, o “superaquecimento” e ter durabilidade superior.

LINHA BLINDADOS - na composição das pastilhas são usadas fibras de maior resistência mecânica e metais de alta pureza, evitando os desgastes prematuros.

LINHAS NACIONAL E IMPORTADA - como todas as pastilhas **EcoPads**, estas atendem as especificações técnicas das montadoras de veículos e evitam o “fading” (perda do coeficiente de atrito) devido a constante performance.

LINHA PREMIUM - para os veículos de alta performance, a formulação da massa de atrito atende as normas da Comunidade Europeia.

LINHA RACING - pilotos e equipes de competições têm a possibilidade de adquirir diretamente da **EcoPads** pastilhas com composto de alta performance, produzidas sob encomenda.

LINHA TUNING - pastilhas esteticamente diferenciadas e com acabamento superior. A **EcoPads** produz pastilhas de freio de

qualquer uma das linhas em diferentes acabamentos e cores correspondentes a cada linha.

COMPETIÇÕES

Fornecedora oficial de itens e componentes para as equipes das principais categorias profissionais do automobilismo, a **EcoPads**, mais uma vez comprova o alto nível de qualidade dos seus produtos, além da capacidade e dinamismo do seu sistema de produção.

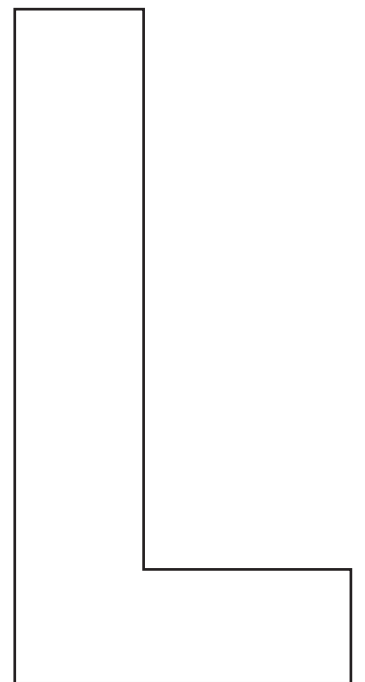

As peças são produzidas em larga escala, atendendo perfeitamente a demanda gerada pelas competições. Todos os componentes **EcoPads** – do primeiro ao último item produzido - apresentam exatamente o mesmo rendimento e performance.

Ser o fornecedor das principais categorias de automobilismo também garante à **EcoPads** uma importante visibilidade da marca e estreita ainda mais o seu relacionamento com o mercado. Só mesmo a **EcoPads**, com o maior catálogo de aplicações do mercado, poderia atender tal demanda. Atualmente, está presente, entre outros, nos seguintes campeonatos: **Stock Car, Porsche GT3 CUP, Copa Petrobrás de Marcas, F3, Fórmula Truck...**

Para acompanhar as novidades e as atualizações nas aplicações, entre em nosso site: www.ecopads.com.br
